# About Argo

## A new standard in cruising

From Split, Croatia, the historic cradle of shipbuilding, comes Argo, the first of the ICY-55 series and a new benchmark in yachting. Launched in 2024, she blends the intimacy of a private retreat with the presence of a grand vessel. At fifty-five meters (180' 5"), Argo is designed for those who seek access and authenticity: to hidden bays, coastal villages, and UNESCO-protected towns that remain out of reach to larger ships.

## Layers of living

Argo unfolds across five decks, each a setting for a different rhythm of life at sea. The sun deck welcomes mornings with unbroken light and evenings with soft breezes, where yoga, conversation, or quiet reflection feel perfectly placed. The wheelhouse deck offers a panoramic jacuzzi and bar, alongside an open-air cinema under the stars.

On the upper deck, interiors and terraces blend seamlessly into one another, flowing from elegant salons to al fresco dining. At the waterline, the beach club opens directly onto the sea, while the swim platform becomes the natural gathering point when anchored in a quiet bay.

## Refined interiors, thoughtful touches

Argo accommodates twenty-six guests in thirteen suites, one Master, one VIP, nine Doubles, and two Twins, each with rain showers, writing stations, seating areas and carefully chosen finishes. The main salon invites communal dining and conversation, while the sky lounge presents 270° views in glass, a place for both gatherings and quiet moments. A fully equipped gym, discreetly positioned yet open to natural light and sea views, ensures wellness is always part of the journey. Light woods, natural textures, and an understated palette create interiors that are serene, contemporary, and luxuriously inviting.

### **Dining engaged with place**

Dining aboard Argo is never incidental, it is central to the voyage. Menus are crafted to reflect guest preferences while drawing inspiration from the regions visited. Fresh produce is sourced daily from coastal markets and fishermen, then refined into cuisine that blends international craft with Mediterranean character.

Guests might begin the day with a leisurely breakfast on deck, pause for a long lunch beside a hidden cove, and gather for an elegant dinner under the stars. The experience is complemented by a curated wine cellar that combines rare vintages from Europe's leading estates with distinctive bottles from Croatia's most celebrated vineyards. Signature cocktails and crafted non-alcoholic pairings complete the offering. Each meal becomes a ritual, a moment that mirrors both the place and the pace of the journey.

### **The Adriatic's most comprehensive fleet**

Argo carries the most extensive collection of tenders and water toys in the Adriatic, offering both quiet exploration and exhilarating adventure. Guests may paddle across still waters at sunrise, snorkel reefs alive with marine life, or glide beneath the surface with Seabobs. For thrill-seekers, jet skis, Fliteboards, and the spectacular twenty-one-foot water slide deliver unrestrained fun. An inflatable yacht pool creates a suspended oasis, while a FunAir golf tee transforms the aft deck into a horizon-framed driving range.

Supporting these experiences is Argo's performance fleet. The Axopar 37 chase boat reaches speeds up to forty-five knots, making remote islands and coastal towns accessible within moments. A Highfield Patrol tender ensures swift and comfortable transfers between yacht and shore. Together, they extend every possibility of discovery and leisure, ensuring that life at sea is as dynamic as it is indulgent.

# *In Detail*

**SUPERSTRUCTURE** Tri-deck +

# General Arrangement

# *The Well-Being Package*

## **An exclusive enhancement**

For guests who wish to enrich their time on board with a deeper focus on health and renewal, Argo offers a Well-Being Package, an optional program that transforms a voyage into a personal journey of balance and vitality. Tailored to each individual, it adds a dimension of care that goes beyond the pleasures of yachting, creating an experience that restores as much as it inspires.

## **Personalised from the start**

The journey begins before embarkation, with a private consultation to shape the experience around your goals, whether improved fitness, relaxation, or long-term well-being. Once aboard, personalised assessments help refine the program, ensuring that every session, treatment, and practice is designed with you in mind.

## **Movement, energy, renewal**

Each day presents opportunities to move and reconnect. Guests may enjoy one-on-one training or join guided sessions ranging from functional strength and high-intensity workouts to yoga, Pilates, and mindful breathwork. The Adriatic itself becomes part of the practice, with stand-up paddleboarding, open-water swimming, and guided coastal hikes woven naturally into the rhythm of the voyage.

## **Holistic therapies**

At the heart of the program are restorative treatments that rebalance body and mind. Expertly delivered massages and targeted therapies release tension, restore energy, and leave guests recharged. Each session is designed to bring immediate relief while building a sense of lasting vitality.

### **A personal wellness team**

The well-being package is delivered by a dedicated team of professionals who travel with you throughout the charter. Personal trainers, yoga and pilates instructors, massage and holistic therapists ensure that every element of well-being is cared for with expertise and discretion. From movement and recovery to relaxation and renewal, the team provides a seamless layer of support, allowing wellness to feel effortless and deeply personal.

### **A natural extension of the voyage**

The well-being package is more than an addition, it is a seamless continuation of life on board: calm, private, and deeply indulgent. It is wellness reimagined at sea, designed entirely around you.

# *Argo Privileged Access*

Argo Privileged Access opens doors beyond the voyage itself. It is a carefully curated collection of experiences available to guests who wish to shape their time in Croatia with greater freedom, comfort, and depth, selecting what resonates and leaving the rest untouched. This is Croatia at its most considered.

Every element is designed to remove effort, simplify decisions, and elevate time spent ashore and at sea. Guests choose. Everything else is quietly taken care of.

## **Seamless VIP arrivals & departures**

From the moment guests arrive at the airport, they are personally welcomed at arrivals. Luggage is taken care of, transitions are effortless, and guests are guided directly from the terminal to their transfer without delay or uncertainty.

From that first step on the ground, everything is handled on their behalf, allowing them to relax immediately, knowing they are fully looked after from arrival to departure.

### **Private olive oil & wine encounters**

Croatia's olive oils and wines are deeply rooted in place, tradition, and small-scale production. Many of the country's most respected estates are located in remote areas, often reached only by hillsides or islands, making them places travellers rarely discover on their own.

These tastings offer a genuine connection to Croatian terroir, guided by those who know it best. Guests experience distinctive flavours, production methods, and stories that reflect generations of craftsmanship rather than mass production.

### **Cultural & natural immersion**

Croatia reveals itself most powerfully when explored without crowds or rigid schedules. Privately guided experiences offer space to

absorb the country's landscapes and historic cities at a natural, unhurried pace. National parks such as Krka National Park, with its cascading waterfalls and wooden walkways, Mljet National Park, known for its saltwater lakes and monastery island, and Brijuni National Park, a former presidential archipelago rich in layered history, each offer a distinct expression of Croatia's protected nature.

Historic cities including Dubrovnik, enclosed by medieval walls, Split, where Roman heritage and modern life intertwine, Hvar, celebrated for its harbour views and Venetian legacy, and Korčula, with its compact old town and maritime character, are explored through private sunset walks that bring history, architecture, and atmosphere together in a refined, unhurried way.

### **Nanny & childcare services**

For families travelling with children, experienced nanny and childcare professionals provide reassurance and flexibility throughout the journey. All caregivers are trained, qualified, and accustomed to working with international families.

Activities are adapted to each age group, combining play, creativity, learning, and rest, allowing parents to enjoy their relax time fully, confident that their children are safe, engaged, and genuinely cared for.

### **Creative & interactive workshops**

Guests may choose from a selection of relaxed, engaging workshops designed to add a playful and social dimension to time onboard.

Options may include Paint & Sip sessions, hands-on culinary experiences inspired by Mediterranean flavours, cocktail-making workshops, or photography sessions focused on capturing light, movement, and scenery. These experiences are informal and enjoyable, encouraging creativity without structure or pressure.

### **Longevity consultations & personal insights**

Longevity has become one of the most influential movements in modern wellbeing. Within ARGO Privileged Access, it is experienced in a distinctly different way, unrushed, private, and removed from clinical settings.

Through discreet one-on-one consultations supported by advanced laboratory diagnostics, guests gain personalised insight into metabolic health, energy balance, stress response, nutrition, and healthy ageing. Guidance is clear, relevant, and designed to extend well beyond the journey, offering a refined, long-term perspective shaped by science, setting, and individual lifestyle.

### **Massage & body treatments**

Moments of rest and recovery are woven naturally into the journey. Massages and body treatments take place at carefully chosen times, at sunset on deck or in the quiet privacy of a guest cabin. Each treatment focuses on relaxation, muscle release, circulation, and stress relief, adapted to individual needs and preferences.

### **Yoga, pilates & personal training**

Guests who wish to remain active while travelling can continue their routines—or discover new ones, through yoga, pilates, or personal training sessions.

Movement is adapted to personal fitness levels and goals, offering balance, strength, and energy without interrupting the ease of the journey.

### **Evenings under the stars**

Evenings aboard Argo are shaped entirely by preference. Guests may choose an elegant dinner under the stars, accompanied by a live string quartet, a solo saxophonist, or a traditional Dalmatian klapa, a cappella vocal groups recognised by UNESCO as Intangible Cultural Heritage, known for their powerful harmonies and deep coastal roots.

Alternatively, the evening may take on a more vibrant rhythm in a secluded bay, with a DJ and live saxophone creating a relaxed, high-energy atmosphere guided by music, movement, and mood.

### **Private outdoor exploration**

For guests drawn to movement and scenery, private kayaking, cycling, hiking, and stand-up paddleboarding offer immersive ways to experience Croatia's coastline, islands, and inland paths.

Certain experiences combine physical activity with cultural discovery, such as a guided hike followed by a visit to the historic Blaca Hermitage, creating days that feel active, varied, and deeply rewarding.

### **Adventure & sea sports**

For those seeking excitement, a selection of high-energy experiences adds contrast to calmer moments onboard. Via ferrata climbing along dramatic rock faces, scuba diving in clear Adriatic waters, and windsurfing powered by coastal winds offer memorable challenges.

All activities are guided by certified professionals, allowing guests to enjoy adrenaline-driven experiences with confidence and ease.

### **Hidden history**

Exploring Croatia's past takes on a different dimension through private off-road jeep tours to former military tunnels and fortifications. These routes lead through rugged landscapes to sites carved into rock and shaped by history.

All experiences within Argo Privileged Access are shaped through personalised consultations, ensuring that every choice reflects individual preferences, timing, and travel style.

Guided by local experts, these experiences combine discovery, storytelling, and adventure, revealing a lesser-known layer of the region.

### **Capturing the journey**

Selected photography sessions are available to capture key moments throughout the journey. The focus is on natural, unobtrusive imagery, documenting atmosphere, connection, and shared experiences.

Guests receive a curated visual collection after their voyage, preserving memories with clarity and authenticity.

# *Where Your Journey Begins*

Argo is docked at ACI Marina Split, one of the Adriatic's finest harbours and the gateway to Croatia's most captivating coastline. From here, the possibilities of the sea unfold in every direction: the UNESCO-listed city of Split at your doorstep, the islands of Hvar, Vis, and Korčula just beyond the horizon, and countless hidden coves known only to those who live by these waters.

Croatia is more than a destination, it is a world of contrasts. Medieval towns with winding stone streets give way to untouched bays where time seems to pause.

Vineyards, olive groves, and lavender fields meet sapphire waters and white limestone cliffs. It is a coastline of endless discovery, equally suited to days of adventure, cultural immersion, or complete stillness.

Every route aboard Argo is completely personalised, designed around your interests, your rhythm, your vision of the perfect voyage. Yet among the many possibilities, two itineraries stand out as favorites.

# *A Voyage Designed Around You*

Aboard Argo, nothing is predefined. Every journey is created anew, a reflection of the people who step on board and the vision they bring with them. Routes, programs, events, and experiences are shaped entirely around your desires, ensuring that no two voyages are ever alike.

For some, this may mean days filled with stillness and wellness; for others, cultural immersion, celebration, or the rhythm of corporate gatherings in complete privacy. Whatever the purpose, every detail is curated with the same devotion to discretion, precision, and care.

This is the essence of Argo: more than a yacht, she is a stage for possibility. A place where science and pleasure, discovery and restoration, business and celebration all find their balance. A vessel where every horizon opens to a journey designed exclusively for you.

*Every horizon, entirely yours.*
